VESA
75mm x 75mm
100mm x 100mm

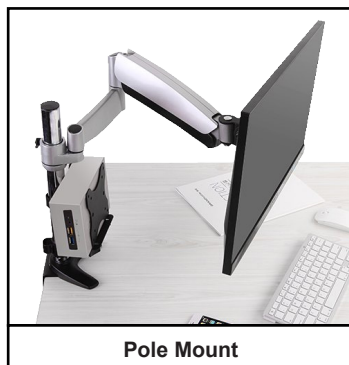

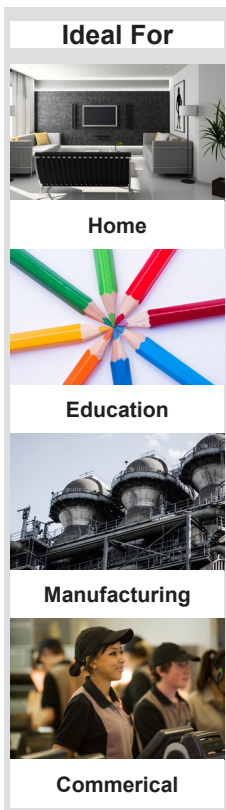

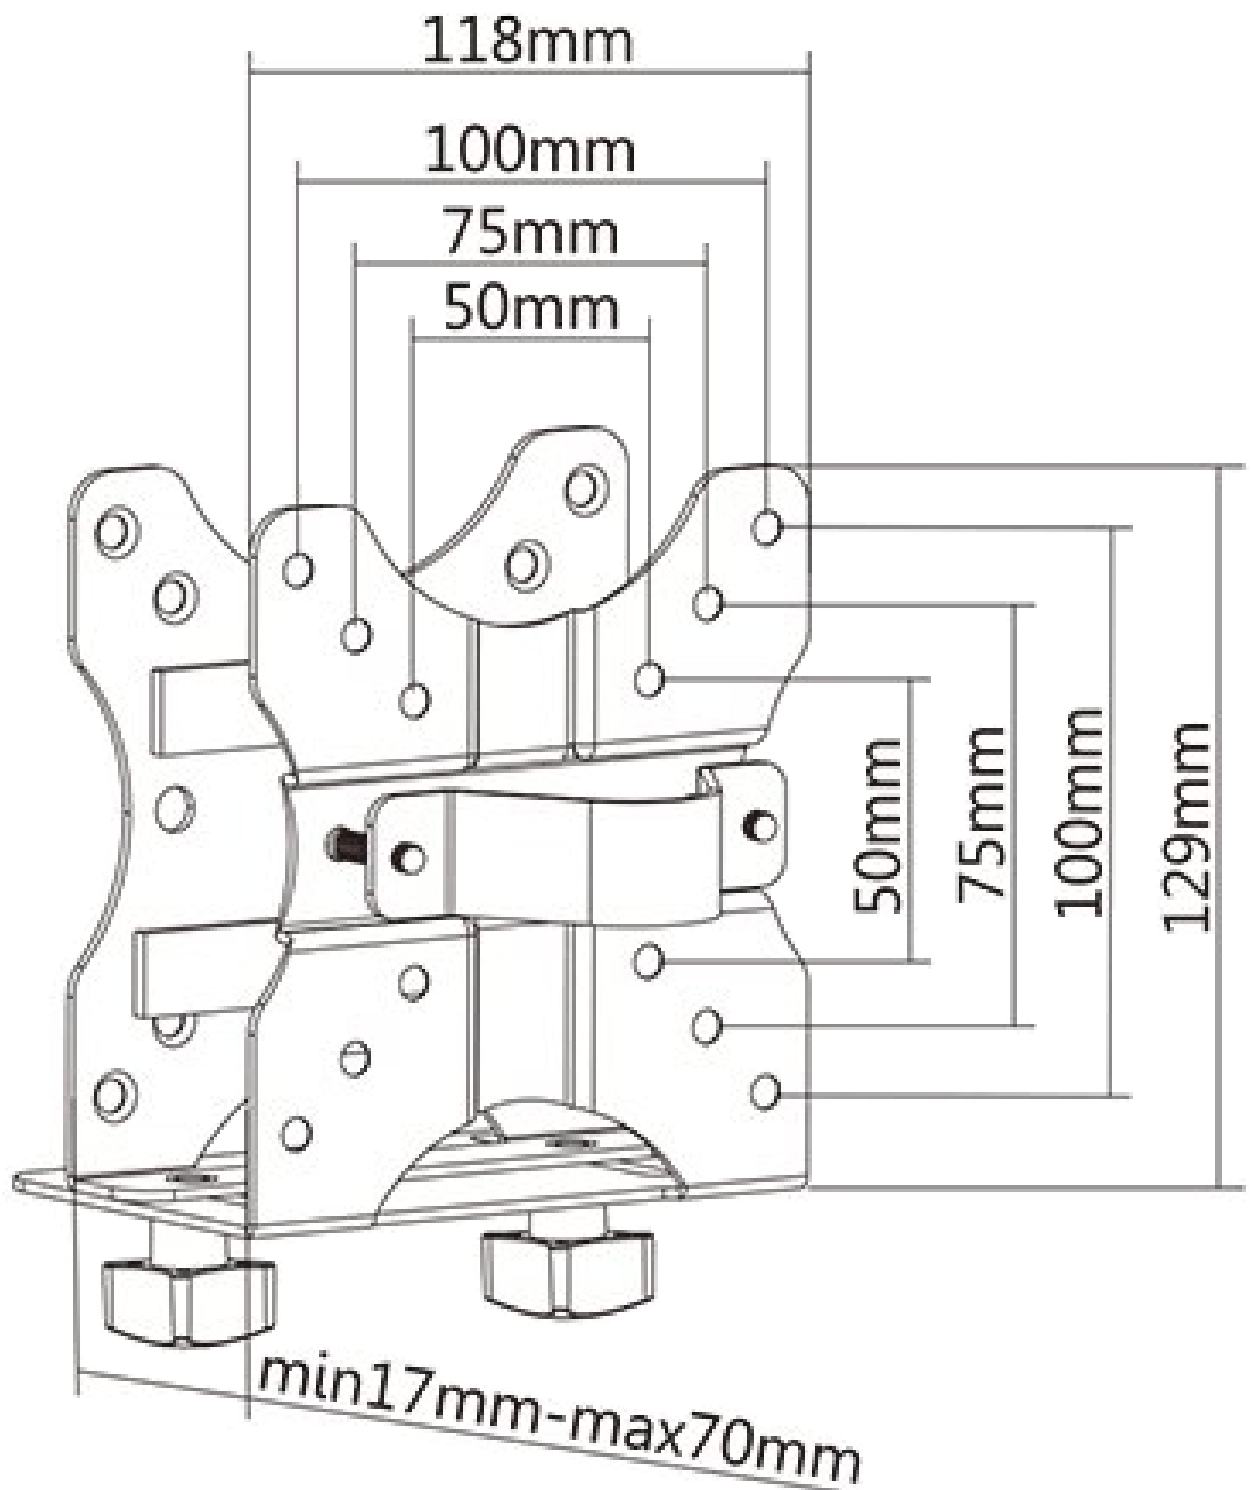

- Ideal for small form factor PC's & Mini ITX Units
- Supports up to 5KG
- VESA 75mm x 75mm & VESA 100mm x 100mm
- Mount the CPU behind the monitor, on to the wall or onto a pole
- Great for digital signage solutions
- Easy to install

This small and compact VESA Mount has been designed to allow users to easily mount Non-VESA compliant small form factor PC's directly to the wall, desk or a pole.

For years the most common requirement has been for smaller PC's to be mounted behind monitors on desks. However, with the recent surge in requirements for digital signage, installers have been looking for new and innovative ways to mount mini PC & ITX Systems out of site. The EMCPUTCB-1 does exactly that. Not only is it cost effective, but it can be installed in literally seconds.

Compatible with VESA 75 x 75 and VESA 100 x 100 Compliant Screens & Mounts

 Unit 10 Pegasus Court, North Lane, Aldershot,
Hampshire, England, United Kingdom
