The ErgoMounts EMVPF1500X is a stylish display stand designed for use with multiple small - medium sized flat screens. The free standing base can be bolted down to keep everything secure and can also include a cable management system for a clean finish. Suitable for screens with VESA fixings up to 400 x 200, the screen can be easily mounted at any height on the pole. As standard we supply a 1.8M Black Pole but a range of other pole sizes and colours are available.
