

UltraView 460 Triple
LCD Monitor Arms

UltraView 460 Triple LCD Monitor Arms

The EMUV460 UltraView series is capable of mounting larger wide screen TVs and LCD monitors 20"-24" each up to 6kg in weight. Monitors (up to 600mm wide) are mounted on a single 35mm pole in a horizontal configuration.

This model is supplied with a bolt through/grommet mount fitting or desk clamp. The bolt through/grommet mount fitting fits through the desks cable management port reducing the need for additional drill holes.

The robust and durable ergonomic design allows between 70mm and 470mm of reach along with 370mm of height adjustment.

The EMUV460 is a highly aesthetic touch screen stable product which enables monitors to be adjusted in height, curvature, swivel and tilt to suit the requirements of the environment or individual user.
